

FALCON Tool Company

PROFESSIONAL TOOLS FOR INDUSTRIAL APPLICATIONS

Polishing Lubricant & Diamond Thinner

Developed especially for Falcon Diamond Compounds & Polishing Stones.

Falcon Polishing Lubricant & Diamond Thinner doubles as both a stoning lubricant for polishing stones and a thinner for diamond compounds. Formulated for mold polishing to clean, lubricate and prevent stone loading.

Water-based formula for easy clean-up and is biodegradable.

- Nearly odor free
- Non-flammable
- Biodegradeable
- Water-based and water-soluble
- Ideal for use on molds that will be coated
- Made in USA 

Item	Description	LIST Price
07B-THN1000	6 oz	\$2.46
07B-THN1001	Pint	\$5.23
07B-THN1002	Quart	\$9.41
07B-THN1003	Gallon	\$22.99

Stoning Oil

Ideal lubricant for use with Falcon Polishing Stones and Coated Abrasives.

Falcon Stoning Oil is the perfect oil-based lubricant for use with polishing stones and coated abrasives. It prevents stone loading and allows for more consistent and free cutting action. Use this oil on the work piece/tool itself or as a stone pre-soak (remember to separate grits when soaking to eliminate grit contamination).

- Petroleum-based
- Nearly odorless
- Not harsh on the hands like other oil based lubricants such as kerosene
- Does not promote oxidation on molds and dies
- Viscosity: 38/45
- Made in USA 

Item	Description	LIST Price
07B-THN1004	2 oz	\$2.00
07B-THN1005	Pint	\$12.50
07B-THN1006	Gallon	\$38.00
